

## **II. IN THE DRAWINGS**

The original application includes twenty four drawings. New **FIGS. 25 to 28** are being added to comply with the provisions of 37 CFR 1.83(a), which requires the drawings to show every feature of the invention specified in the claims. As such:

1. New **FIG. 25** indicates two examples of an embodiment, wherein the playing positions are mapped on the surface of a three-dimensional housing such as a sphere, or a cube.
2. New **FIG. 26** is a lookup table that illustrates the assignment of the color codes for the 4 x 4 embodiment to two colors.
3. New **FIG. 27** indicates an alternate embodiment using keypad switches, and a liquid crystal display screen.
4. New **Figure 28** indicates an alternate embodiment that interfaces with an external video monitor to provide multi-color displays, or a plurality of images.
